## The Roots of Pinellas County: A Historical Look at Clearwater, Dunedin, Indian Rocks, and Largo

### CLEARWATER

Clearwater's origins trace back to 1528 when Spanish explorer Panfilo de Narvaez first landed on its shores, 37 years before the establishment of St. Augustine. De Narvaez's expedition marked one of the earliest European encounters with the area, which was inhabited by a large tribe of Native Americans. Despite initial resistance, the Indian communities were gradually displaced, only to see their territory reclaimed during the Seminole Wars from 1835 to 1842.

Among the first permanent settlers was Dr. Odet Philippe, a French Count and surgeon in Napoleon's Navy, who established a plantation in the mid-1830s. In 1841, Fort Harrison was constructed on the bluffs overlooking what was then called Clearwater Harbor, serving as an encampment for soldiers. Upon the fort's abandonment, homesteaders began claiming land, with James Stevens being the first to obtain a land title in 1842, marking the beginning of Clearwater as a burgeoning community.

While Clearwater initially developed as an agricultural and fishing hub, it slowly expanded, with limited access to outside resources. The local springs, noted for their clear water, supplied Native Americans and early settlers with fresh water, contributing to the area's identity. Clearwater Harbor was officially incorporated in 1891 and became chartered as a municipality on May 27, 1915.

### DUNEDIN

The establishment of Dunedin began with Richard L. Garrison receiving a land grant in 1852, shortly after Florida's statehood. The settlement initially bore Jonesboro, influenced by local merchant George Jones. It wasn't until 1882 that Scottish merchants J.O. Douglas and James Somerville petitioned for a name change to Dunedin, which they derived from the Scottish Gaelic term for Edinburgh.

Dunedin developed as a key trading center, thanks to a newly built dock that accommodated larger vessels, and once boasted the largest fleet of sailing vessels in Florida. The community was officially incorporated in 1899 and later elevated to city status in 1925.

DUNEDIN MARINA, CIRCA 1900

### INDIAN ROCKS

The name Indian Rocks is associated with local legends involving Chief Chic-a-Si, who was said to have been healed by spring waters near large rocks in the area. According to the legend, after drinking from these waters, the chief regained his health, leading Native Americans to return annually for healing and fishing. Another, simpler tale posits that early settlers named the area after observing Native Americans using rocky outcrops to cross from the mainland to fish. While the true origin of the name remains uncertain, both stories enrich the cultural tapestry of Indian Rocks Beach.

### LARGO

Originally inhabited by the Timucua Indians, the area that would become Largo saw significant change following the arrival of Spanish explorers like Panfilo de Narvaez in 1528. After centuries of failed attempts at settlement by various explorers, Count Odet Philippe became the first permanent settler in the region in 1823, paving the way for subsequent families throughout the 1800s.

In 1886, with the advent of the Orange Belt Railroad, residents felt the need to give their

community a name. Although some proposed Luluville after a resident's daughter, they ultimately chose Largo, likely due to the presence of a large lake that has since been drained. By the early 1900s, Largo emerged as a center for the citrus industry, earning the title "Citrus City."

Largo was officially incorporated in 1905, becoming the first town in Florida to adopt a town manager system by 1913. Over decades, it faced challenges, including the Great Depression and freezes that devastated its agricultural base. However, post-World War II saw a population boom as returning veterans discovered the region's appeal, transforming Largo into a thriving city with a population exceeding 22,000 by 1970.

These historical narratives of Clearwater, Dunedin, Indian Rocks, and Largo reflect the rich tapestry and resilience of the local communities throughout Pinellas County, each contributing uniquely to the region's legacy.

beaches

There is no doubt that the Gulf Coast has some of the best beaches anywhere in the world; in fact, Clearwater Beach has been ranked by Dr. Beach as the number-one beach in the world many years running. There is never a loss of

things to do in Clearwater. If you're looking for an adventurous happening place where all the tourists go, then this beach is your pick. However, there are so many beautiful beaches in the area each offering its own style; you might want to check out where the locals soak up the sun.

Indian Shores / Tiki Gardens

This public-access beach is situated on 9.9 acres and offers restrooms, beach showers, a water fountain, and a 170-space parking area (parking fee charged).  
**19601 Gulf Blvd.  
Indian Shores, FL 34635**

Clearwater Beach

Clearwater Beach is one of the most beautiful (and most popular) beaches in the country. In fact, it's consistently ranked as one of the top beaches in the U.S. by authorities like TripAdvisor and Travel and Leisure. And it's no surprise why – the wide, sweeping, white-sand beach is absolutely stunning. And the warm, calm waters of the Gulf of Mexico are just unbeatable.

Caladesi Island State Park

This beautiful state park is located just off offshore from Dunedin and can be accessed by ferry, which operates 365 days a year and only costs \$6 per person (well worth the cost).

Caladesi Island State Park has a marina with floating docks with 30-amp electric service and water hookups. A covered pavilion with a grill is available for picnicking. A snack bar and gift shop are located in the marina. Some of the amenities include fishing, hiking, paddle boarding, picnicking, and swimming. Canoes and kayaks are available for rent.  
**1 Causeway Blvd, Dunedin, FL 34698  
(727) 469-5918(ferry)**

Indian Rocks Beach

While all of the tourists are stacked deep at Clearwater Beach, most locals head for the white sandy dunes of Indians Rocks Beach, where there are usually very few people on the beach, and you'll be able to spread out and enjoy a peaceful relaxing experience. After a long day at the beach, head to the original Crabby Bills on Gulf Boulevard at Fourth Avenue North for a premium adult beverage and a dozen fresh succulent oysters to start. Sit back and relax while listening to live music at their outdoor bar where a full menu is available for dinner.  
**1700 Gulf Blvd., Indian Rocks Beach, FL 34635**

Honeymoon Island Beach State Park

One of Florida's best-loved state parks, Honeymoon Island has more than four miles of beach to explore along with a three-mile trail through one of the last remaining virgin slash pine forests. A natural barrier island, this state park boasts pristine nature trails and abundant wildlife, including eagles, osprey, and great horned owls. Ground animals include raccoons, armadillos, and don't be surprised to see an endangered gopher tortoise walking across your path or hear the call of an osprey—or the bark of Fido, who may explore the dog beach, which is a half-mile hike off the main road. The Pinellas Trail has a spur that runs the length of the Dunedin Causeway right to the park entrance.

► **CLEARWATER MARINE AQUARIUM**

Clearwater Marine Aquarium is a nonprofit organization and aquarium in Clearwater. It is dedicated to the rescue, rehabilitation, and release of sick and injured marine animals, public education, conservation, and research.

Clearwater Marine Aquarium opened in 1972 at its current location on Clearwater Beach, in a former water treatment plant (the large pools being well-suited for rehabilitation operations).

Numerous forms of marine life are permanent residents at the aquarium, all of which have serious injuries that prevent their return to the wild.

The aquarium's best-known permanent resident was Winter, a bottlenose dolphin who was rescued in December 2005 after having her tail caught in a crab trap. Her injuries caused the loss of her tail, and the aquarium fitted her with a prosthetic tail, which brought worldwide attention to the facility. Winter later starred in the 2011 film *Dolphin Tale*, and the sequel, *Dolphin Tale 2*, was shot partially on location at the aquarium. Unfortunately, in November of 2021, Winter passed away, but her legacy lives on at the aquarium, where visitors can view her memorabilia, including her iconic prosthetic tail and memorabilia from her movies that honor her remarkable life and the inspiration she brought to millions.

## DOG PARKS

Pinellas County has some wonderful places for your furry friends to stretch out, run and interact with other fluffy puppies. # BUT FIRST, COFFEE! ... OR TEA!

## From Early Morning to Late At Night...

**When you have to have  
your coffee or tea  
... Check these places out!**

### How do you take it?

Black, Americano, Macchiato, Café au Lait, Espresso, Latte, Cappuccino, Iced, or with a splash of the Irish.

Some like it hot, others iced, then there is the question: Are you a dark-roast or a light, smooth and mellow connoisseur? Regardless of your fancy, these shops will have the brew for you. If it were just about the coffee, Dunkin's drive-through would make our list, but we wanted to share with you a few spots where you can have more than just a cup of coffee. The shops listed below offer great coffee, pastries/desserts, and an experience that you won't find at a corporate Starbucks, Dunkin's, or even Panera, for that matter.

## LOCAL TIP

October is Stone Crab season in Florida. There are festivals all over the area and most restaurants will have them on their menus, but if you want the biggest and in my opinion the best, you have to go to Frenchy's on Clearwater Beach. We never miss it. - Lenore S.

# turtle TALES

As a newcomer to Pinellas County, Florida, it's important to be aware of the beautiful wildlife that shares the area with humans. One of the most fascinating events that takes place on the county's beaches is sea turtle nesting. Sea turtle nesting season typically runs from May through October, with the peak of activity occurring in July and August.

During this time, female sea turtles come ashore to lay their eggs in the sand, where they incubate for about two months before the hatchlings emerge and make their way to the sea. It's important to be mindful of sea turtle nesting areas and to take precautions to keep them safe.

HERE ARE SOME TIPS TO KEEP IN MIND WHEN VISITING THE BEACHES DURING NESTING SEASON:

- 1. Respect the marked nesting areas** - Do not disturb any area that's marked as a nesting site. These areas are carefully monitored to ensure the safety of the eggs and hatchlings.
- 2. Avoid using lights on the beach at night** - Sea turtles are easily disoriented by artificial lights, which can cause them to lose their way and become prey to predators. It's best to avoid the use of flashlights and other lighting sources during nesting season.
- 3. Don't leave trash on the beach** - Trash and debris can be dangerous to sea turtles, who can become entangled and injured. Always dispose of trash and litter in proper receptacles.
- 4. Follow beach regulations** - Many beaches have specific regulations regarding behavior on the beach, such as no pets or no vehicles.

Make sure to follow these regulations to ensure the safety of the sea turtles. By following these tips, newcomers to Pinellas County can help protect the sea turtles that make their home on the beautiful beaches of this area. Remember, these stunning creatures are an important part of our ecosystem and deserve our respect and protection.

1031 Risk Disclosure: • There is no guarantee that any strategy will be successful or achieve investment objectives; • Potential for property value loss – All real estate investments have the potential to lose value during the life of the investments; • Change of tax status – The income stream and depreciation schedule for any investment property may affect the property owner's income bracket and/or tax status. An unfavorable tax ruling may cancel deferral of capital gains and result in immediate tax liabilities; • Potential for foreclosure – All financed real estate investments have potential for foreclosure; • Illiquidity – Because 1031 exchanges are commonly offered through private placement offerings and are illiquid securities. There is no secondary market for these investments; • Reduction or Elimination of Monthly Cash Flow Distributions  
– Like any investment in real estate, if a property unexpectedly loses tenants or sustains substantial damage, there is potential for suspension of cash flow distributions; • Impact of fees/expenses – Costs associated with the transaction may impact investors' returns and may outweigh the tax benefits.
